

Assignment (1) Guidelines

Article Writing

The sustainable Development Goals are considered as a blueprint to achieve a better and more sustainable future for all. Therefore, each individual / organization and country are expected to play an important role in achieving the SDGs.

This assignment is designed to assess your ability to critically analyze and comparatively reflect on the Sustainable Development Goals (SDG) achievements of two countries. It aims to evaluate your research, analytical, and communication skills in the context of global development issues.

Your task is to delve into a variety of sources, including academic papers, official reports, and statistical data, to gather information about the progress and challenges faced by your chosen countries in the context of the SDGs. You will be expected to not only identify and document the achievements and shortcomings but also critically analyze and compare the strategies, policies, and socio-economic factors influencing their progress.

The article must comprise of 3 core sections as below,

SECTION 1 – INTRODUCTION

This section must include **both** an introduction to your chosen countries and the concept of Sustainable Development Goals (SDG's).

The Introduction on SDG's must cover areas such as – What are SDG's (A summary, do not present all 17 goals here), What is the importance of SDGs for your chosen countries.

[Approx: 500 words]

SECTION 2 - COMPARATIVE ANALYSIS OF SDG ACHIEVEMENTS

You are required to analyze and compare the progress of two chosen countries towards achieving the SDGs.

- Select two countries to compare (could be from different regions or with contrasting socio-economic backgrounds).
- Research and gather information from diverse sources like academic papers, official

reports, and statistical data about these countries' **progress** and **challenges** related to specific SDGs.

- Document the **achievements** and **shortcomings** of each country in their pursuit of SDGs.
- Critically analyze and compare the **strategies**, **policies**, and **socio-economic factors** that have influenced their progress.

[Approx: 1500 words]

SECTION 3 – CONCLUSION AND RECOMMENDATIONS

Based on the analysis, identify the areas for improvement for each country and propose recommendations as a group on how YOU think the chosen countries can overcome challenges and further improve on the sustainability frontier.

Include a brief conclusion paragraph at the end of the article.

[Approx: 500 words]

GROUP FORMATION

Students are required to form groups of 10 members each.

To facilitate this process, a platform on NLearn is specifically designed for group enrollment. It is imperative that each student logs into NLearn to enroll in a group relevant to their faculty. There are four distinct links provided, corresponding to the four different faculties.

Group Enrollment Link (FOB) (FOB Groups)

Dear Students,

Please note that this link is for the purpose of group enrollment of students ONLY from the **Faculty of Business (FOB)**!!

Deadline for enrolling into a group: **15th of June 2024**

Thank you!

Group Enrollment Link (FOC) (FOC Groups)

Dear Students,

Please note that this link is for the purpose of group enrollment of students ONLY from the **Faculty of Computing (FOC)**!!

Deadline for enrolling into a group: **15th of June 2024**

Thank you!

Group Enrollment Link (FOE) (FOE Groups)

Dear Students,

Please note that this link is for the purpose of group enrollment of students ONLY from the **Faculty of Engineering (FOE)**!!

Deadline for enrolling into a group: **15th of June 2024**

Thank you!

Group Enrollment Link (FOS) (FOS Groups)

Dear Students,

Please note that this link is for the purpose of group enrollment of students ONLY from the **Faculty of Science (FOS)**!!

Deadline for enrolling into a group: **15th of June 2024**

Thank you!

It is **COMPULSORY** for students to enroll **only in the group link associated with their respective faculty**.

Steps:

1. Log in to NLearn using your credentials.
2. Locate the link designated for your faculty (Four different faculty links provided).
3. Enroll in a group within your specific faculty.

ASSIGNMENT SUBMISSION

Assignment Submission Deadline: 22nd June 2024

Four submission links will be created in NLearn for students to submit a **PDF** version of their articles based on the faculty they represent.
