

Lesson 03:

SUSTAINABLE DEVELOPMENT GOALS

Ms. Senali Guruge
Teaching Assistant – Department of Management
Faculty of Business
BSc. Business Management (Human Resources Management)(Special)

What is Sustainable Development?

“Sustainable development is the development that meets the needs of the present without compromising the ability of future generations to meet their own needs”

FROM MILLENNIUM DEVELOPMENT GOALS TO SUSTAINABLE DEVELOPMENT GOALS

Launched in 2015 the MDGs provided an important framework for the development and significant progress in several areas. However, the progress achieved through MDGs has been **uneven**, particularly in the case of Africa and other least-developed countries.

The SDG therefore **builds on the Millennium Development Goals** and seeks to complete what they did not achieve particularly in reaching the most vulnerable.

The SDG however goes beyond the scope of MDGs by adding in several new economic, social, and environmental objectives along with the promise of achieving universal peace and inclusivity

Overview of Sustainable Development Goals (SDGs)

- The Sustainable Development Goals in simple terms is a plan of action for people, the planet, prosperity, and universal peace.

The purpose: To address current global challenges, including poverty, inequality, climate change, environmental degradation, peace and justice.

- The SDG's broadly consists of 17 goals and 169 targets. These goals and targets are set to stimulate action for 15 years with the hope of achieving Universal Sustainability.

THE 5P'S OF SDG'S

The areas of **critical importance** under the Sustainable Development Goals can be broadly categorized as:

- ✓ **People**
- ✓ **Planet**
- ✓ **Prosperity**
- ✓ **Peace**
- ✓ **Partnerships**

A young boy is seen from the back, wearing a pink shawl over a striped shirt. He is standing in a field of trash and debris, looking towards a clear blue sky. The image is partially obscured by a blue graphic element on the right side of the slide.

SDG 1 – NO POVERTY

AIM: “End poverty in all its forms everywhere”

Target 1.1 – By 2030, eradicate extreme poverty for all people everywhere, currently measured as people living on less than \$1.90 a day

Target 1.2 - By 2030, reduce at least by half the proportion of men, women and children of all ages living in poverty in all its dimensions according to national definitions

Target 1.3 - Implement nationally appropriate social protection systems and measures for all, including floors, and by 2030 achieve substantial coverage of the poor and the vulnerable

1 NO POVERTY

Achieving SDG 1

- ☐ Improving access to sustainable livelihoods, entrepreneurial opportunities, and productive resources
- ☐ Providing universal access to basic social services
- ☐ Progressively developing social protection systems to support those who cannot support themselves
- ☐ Empowering people living in poverty and their organizations
- ☐ Addressing the disproportionate impact of poverty on women
- ☐ Working with interested donors and recipients to allocate increased shares

SDG 2 – ZERO HUNGER

AIM: End hunger, achieve food security and improved nutrition and promote sustainable agriculture

Target 2.1 – By 2030, end hunger and ensure access by all people, in particular the poor and people in vulnerable situations, including infants, to safe, nutritious and sufficient food all year round

Target 2.2 - By 2030, end all forms of malnutrition, including achieving, by 2025, the internationally agreed targets on stunting and wasting in children under 5 years of age, and address the nutritional needs of adolescent girls, pregnant and lactating women and older persons

2 ZERO HUNGER

Achieving SDG 2

- ☐ Meet the immediate food needs of their vulnerable populations
- ☐ Eliminate the loss or wastage of food
- ☐ Create sustainable food systems from production to consumption
- ☐ Boost social protection programs
- ☐ Keep global and domestic food trade going
- ☐ Support smallholder farmers' ability to increase food production

SDG 3 – GOOD HEALTH & WELL-BEING

Target 3.1 – By 2030, reduce the global maternal mortality ratio to less than 70 per 100,000 live births.

Target 3.2 - By 2030, end preventable deaths of newborns and children under 5 years of age, with all countries aiming to reduce neonatal mortality to at least as low as 12 per 1,000 live births

SDG 3 – GOOD HEALTH & WELL-BEING

Target 3.3 - By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, water-borne diseases and other communicable diseases.

Target 3.4 - Strengthen the prevention and treatment of substance abuse, including narcotic drug abuse and harmful use of alcohol.

Target 3.5 - By 2020, halve the number of global deaths and injuries from road traffic accidents

3 GOOD HEALTH AND WELL-BEING

Achieving SDG 3

- ☐ Achieve universal health coverage, including financial risk protection and access to quality essential healthcare services
- ☐ Substantially increase health financing and the recruitment, development, training, and retention of the health workforce in developing countries
- ☐ Support the research and development of vaccines and medicines for communicable and non-communicable diseases

SDG 4 – QUALITY EDUCATION

More than half of children who have not enrolled in school live in sub-Saharan Africa. The proportion of children and youth out of primary and secondary school had 17 per cent in 2018. 617 million youth worldwide lack basic mathematics and literacy skills. Some 750 million adults – two-thirds of them women – remained illiterate in 2016.

Target 4.1

By 2030, ensure that all girls and boys complete free, equitable, and quality primary and secondary education

Target 4.2

By 2030, ensure that all girls and boys have access to quality early childhood development, care, and pre-primary education

Target 4.3

By 2030, ensure equal access for all women and men to affordable and quality technical, vocational and tertiary education, including university

4 QUALITY EDUCATION

Achieving SDG 4

- ❑ Remote learning, e-learning and lifelong learning opportunities for remote and isolated communities
- ❑ Substantially increase the supply of qualified teachers and the supply of scholarships for students in developing countries
- ❑ Increased encouragement of girls and women to study sciences, engineering, and technology
- ❑ The inclusion of reproductive and sexual rights education in curricula

A woman with long dark hair, wearing a grey plaid blazer over a white top, stands and presents to two women seated at a white conference table. The seated women are seen from the back/side, looking towards the presenter. The table has a laptop, a teal cup, and some papers on it. The background is a bright, out-of-focus office space.

SDG 5 – GENDER EQUALITY

Globally, 750 million women and girls were married before the age of 18. In 18 countries, husbands can legally prevent their wives from working; in 39 countries, daughters and sons do not have equal inheritance rights. The female representation in national parliaments across world remain at a mere 23.7 percent.

Target 5.1

End all forms of discrimination against all women and girls everywhere

Target 5.2

Eliminate all forms of violence against all women and girls in the public and private spheres, including trafficking and sexual and other types of exploitation

Target 5.3

Eliminate all harmful practices, such as child, early and forced marriage and female genital mutilation

5 GENDER EQUALITY

SDG 5 – ACHIEVING GENDER EQUALITY

- ☐ Assure sufficient participation of women in decision-making and governance at all levels and across all business areas.
- ☐ Pay equal remuneration, including benefits, for work of equal value and strive to pay a living wage to all women and men.
- ☐ Support access to child and dependent care by providing services, resources and information to both women and men.
- ☐ Establish a zero-tolerance policy towards all forms of violence at work, including verbal/ and/ or physical abuse and prevent sexual harassment.
- ☐ Expand business relationships with women-owned enterprises, including small businesses and women entrepreneurs.

SDG 6 – CLEAN WATER & SANITIZATION

3 in 10 people lack access to safely managed drinking water services and 6 in 10 people lack access to safely managed sanitation facilities. At least 892 million people continue to practice open defecation. 2.4 billion people lack access to basic sanitation services, such as toilets or latrines. Each day, nearly 1,000 children die due to preventable water and sanitation-related diarrheal diseases.

Target 6.1

By 2030, achieve universal and equitable access to safe and affordable drinking water for all

Target 6.2

By 2030, achieve access to adequate and equitable sanitation and hygiene for all and end open defecation

Target 6.6

By 2020, protect and restore water-related ecosystems, including mountains, forests, wetlands, rivers, aquifers and lake

6 CLEAN WATER AND SANITATION

SDG 6 – ACHIEVING CLEAN WATER & SANITIZATION

- ☐ Prioritize water efficiency across operations by installing best practice technologies for water conservation
- ☐ Educating people about the importance of water efficiency, including tying performance bonuses or operations-based incentives to efficient practices
- ☐ Invest in water treatment
- ☐ Invest in water and sanitation projects or infrastructure in under-served regions
- ☐ Prohibit the use of chemicals and materials that can be particularly detrimental to water quality

SDG 7 – AFFORDABLE & CLEAN ENERGY

13% of the global population still lacks access to modern electricity. 3 billion people rely on wood, coal, charcoal or animal waste for cooking and heating. Energy is also the dominant contributor to climate change, accounting for around 60 per cent of total global greenhouse gas emissions.

Target 7.1

By 2030, ensure universal access to affordable, reliable and modern energy services

Target 7.2

By 2030, increase substantially the share of renewable energy in the global energy mix

Target 7.3

By 2030, double the global rate of improvement in energy efficiency

7 AFFORDABLE AND CLEAN ENERGY

- ☐ Commit to sourcing 100% of operational electricity needs from renewable sources
- ☐ Invest in R&D related to sustainable energy services, bringing new technologies to the market quickly
- ☐ Reduce the internal demand for transport by prioritizing telecommunications and incentivizing less energy-intensive modes

SDG 8 – DECENT WORK & ECONOMIC GROWTH

Employment growth since 2008 has averaged only 0.1% annually. Over 60 per cent of all workers lack any kind of employment contract. 600 million new jobs need to be created by 2030, just to keep pace with the growth of the working-age population.

Target 8.1

Sustain per capita economic growth in accordance with national circumstances, and in particular at least 7% per annum GDP growth in the least-developed countries

Target 8.2

Achieve higher levels of productivity of economies through diversification, technological upgrading and innovation, including through a focus on high value added and labor-intensive sectors

Target 8.6

By 2020, substantially reduce the proportion of youth not in employment, education or training

Target 8.7

Take immediate and effective measures to secure the prohibition and elimination of the worst forms of child labor, eradicate forced labor, and by 2025 end child labor in all its forms including recruitment and use of child soldiers

SDG 8 – ACHIEVING DECENT WORK & ECONOMIC GROWTH

- ☐ Offer apprenticeship opportunities.
- ☐ Foster entrepreneurial culture and invest in or mentor young entrepreneurs.
- ☐ Initiate skills development programs moving down company supply chains.
- ☐ Put in place mechanisms to identify child labor and forced labor throughout global supply chains, and implement remediation when abuses are discovered.
- ☐ Install a firm policy against unfair hiring and recruitment practices, particularly for vulnerable groups such as migrant workers.

8 DECENT WORK AND ECONOMIC GROWTH
